EDUCATION

Swami Keshvanand Institute of Technology (SKIT)

B.Tech in Computer Science

CBSE Board

Class 12th: 89.4% Class 10th: 94.8%

Jaipur, Rajasthan

CGPA: 9.8/10 Sep 2023 – May 2027

2021 – 2023

SKILLS

Programming: Python, SQL, C++

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Scikit-learn

DevOps & Tools: Git, GitHub, PowerShell, Azure DevOps (Basics), Docker

Machine Learning: Data Analysis, Statistics, Machine Learning Models

Web Technologies: HTML, CSS

Core Concepts: DBMS, OOP, OS, DSA, CN, Problem Solving, SDLC Basics, Agile Methodology Basics

INTERNSHIPS

KistechnoSoftware

15 July 2024 – 1 Aug 2024

Web Developer Intern

- Completed a 15-day Web Development internship at KisTechno Software, gaining hands-on experience in front-end and back-end technologies.
- Contributed to building a streaming website with responsive design, media integration, and user-focused features.

Coplur

15 June 2025 – 1 Aug 2025

Data Analyst Intern

- Completed a 45-day internship focused on Python and Data Analysis, gaining hands-on experience with Python, Pandas, and other key libraries.
- Learned to clean, analyze, and visualize large datasets using Databricks and Power BI.
- Developed practical skills in data manipulation, visualization, and reporting to support data-driven decision-making.

HJ Infotech

15 May 2026 – Present

Azure Cloud and Devops Intern

- Working with Git, GitHub, Docker, and Azure DevOps.
- Learning CI/CD pipelines and deployment automation.
- Collaborating on software development and delivery workflows.
- Contributing to process automation and version control management.

PROJECTS

Customer Shopping Behavior Analysis

[Project Link](#)

- Analyzed 3,900+ customer purchase records using Python (Pandas, NumPy) and SQL to identify spending patterns, customer segments, and product performance.
- Built an interactive Power BI dashboard to visualize revenue trends, discount impact, and subscriber vs non-subscriber behavior for data-driven business insights.

Car Price Prediction System — Machine Learning & Streamlit

[Project Link](#)

- Developed a Machine Learning-based Car Price Prediction web application using Python, Scikit-learn, and Streamlit to estimate used car prices based on features like car age, fuel type, kilometers driven, ownership, and transmission type.

CERTIFICATIONS

- Awarded the Rajaram Meel Trophy for being the Topper of First Year at SKIT.
- NPTEL Certifications: Programming in C, C++, DBMS, Fundamentals of OOP, Statistics, Project Management, and Soft Skills.
- Solved 300+ DSA problems on platforms like LeetCode, GeeksforGeeks, and CodeStudio, strengthening problem-solving and logical thinking skills.
- Led and coordinated a team during the Smart India Hackathon (SIH) 2025 Preliminary Round.
- Winner of CPC Hackathon.
- Received Silver Medal for Academic Excellence in 3rd Semester B.Tech.
